

Sleep Country Canada Donates Sleep Sets to Guelph Newcomers

On behalf of the Guelph Syrian Refugee Forum, we are extremely pleased to announce a corporate donation of 10 queen sleep sets made by Sleep Country Canada through the Sleep Country Cares program that supports well over a dozen charities.

This donation comes at a significant time as sleep sets are high on the priority list for donations as we are currently receiving families into our community, and we are so pleased that this community initiative is the beneficiary of such a wonderful example of corporate generosity.

The Guelph Chamber was able to coordinate this donation with the support of Pat DeThomasis, who said, "From the very beginning, it has always been our privilege to give back to the communities where we live and do business."

"More than anything else, we love supporting local charities that focus on helping children and families in need. Together, we can make a big difference in our communities," she added.

Sleep Country Canada operates nearly 200 stores across Canada, including their Guelph location at 370 Stone Road West.

For more information on the Chamber's Corporate Challenge and to request donation information, please contact Adam Stewart, Guelph Refugee Forum Corporate Challenge Coordinator, by email at adam@guelphchamber.com.
